

JTC Consulting was founded in 2007 with the aim of providing a range of highly specialized services capable of generating added value, involving professionals with valuable experience and academics from the best universities of Europe.

**Skill, talent** and a natural attitude in **listening** to the customer's needs are the key elements for building a partnership that can achieve excellent results.

For each area and for each project, JTC teams up professionals with a specific experience who effectively achieve targets. Each operation is handled through a rigorously tested method, adapted to the specific project, taking into account the characteristics of the context and company involved.

## The operational areas are:

Change is the only certainty. Adapting to a new environment is the only alternative to extinction for every living body.

JTC Consulting implements the proper internal auditing system to closely observe the various business departments and activate ensuing corrective actions.

We can provide top management the dashboard with the indicators necessary to understand the fundamental aspects of the business, support the correct interpretation of trends, team up with executives in building the subsequent actions and check that targets are achieved.

To measure means to understand. Planning and constant monitoring of performance are essential to run a business with satisfaction.

JTC Consulting implements the proper internal auditing system to closely observe the various business departments and activate ensuing corrective actions.

We can provide top management the dashboard with the indicators necessary to understand the fundamental aspects of the business, support the correct interpretation of trends, team up with executives in building the subsequent actions and check that targets are achieved.

Growth is key to survival.

JTC consulting helps you identify various investment options and choose those with better target payback.

We support top management in analyzing business opportunities, stay alongside executives in making such investments, audit the results and identify corrective actions.

Starting a new business venture is the most delicate moment.

JTC Consulting implements the start-up's Business Plan to evaluate its feasibility and payback.

We can support top management's orientation in the strategic issues of the new venture, follow up the implementation together with the executives and check that targets are achieved.

The world is an opportunity. Borders are becoming less precise and markets closer.

JTC Consulting helps you to evaluate different aspects and procedures for defining a policy of international expansion.

We can support top management in identifying the most attractive areas and choosing the best strategies, we are alongside the executives in implementation plans and check that operations are carried out correctly.
