

JTC CONSULTING · SINCE 2007

Strategic consulting for companies that want to grow.

Company reorganization, performance improvement, investments, start-ups and internationalization. Highly experienced professionals and academics from leading European universities, working alongside top management from analysis to results.

OUR APPROACH

A tailored approach, a proven method

JTC Consulting was founded in 2007 to provide highly specialised, high value-added services, involving professionals with far-reaching experience and academics from Europe's leading universities.

Skill, talent and a natural attitude for listening are what we build on to create partnerships that deliver excellent results.

For each project we bring together professionals with specific experience. Every engagement follows a rigorously tested method, adapted to the features of the context and the company.

AREAS OF EXPERTISE

Five areas where we support top management, from diagnosis to implementation.

01 Company reorganization

Change is the only certainty.

JTC Consulting analyses, with the utmost efficiency, the areas subject to change and defines the actions needed to implement the new organization.

02 Performance improvement

To measure is to understand.

JTC Consulting implements the right management control system to watch every area of the business closely and trigger corrective actions.

03 Investments

Growth is the key to survival.

JTC Consulting helps you identify investment options and choose those with the highest return against your objectives.

04 Start-up

Launching a new business venture is the most delicate moment.

JTC Consulting prepares the business plan for the new project, so you can assess its feasibility and its economic and financial return.

05 Internationalization

The world is an opportunity.

Borders are blurring and markets are getting closer. JTC Consulting helps you critically assess the aspects and options for defining an international expansion policy.

HOW WE WORK

01

Analysis

We read the company's context and numbers to identify where to act.

02

Direction

We define goals and strategy with top management.

03

Implementation

We work alongside executives as the activities are carried out.

04

Review

We measure results and manage corrective actions.

Brazil

"If a company is responsible towards quality, its employees and its customers, it will have a good reputation: 'ethical' money to spend in many directions."

— Amartya Sen, Nobel Prize in Economics 1998

Write to us if you want to:

- restore your company's internal consistency and its fit with the market
- understand more deeply what is happening to your business and improve it
- grow through the right investments
- take on the global market

Let's talk about your project

Tell us where you want to take your company and we will get back to you within a few working days.

Registered office: Assikura Building, Old Railway Track, SVR 9017
